

Dear parents and carers,

We are looking for **Multilit volunteers** to help individual students improve their reading. Multilit is a Reading Tutor Programme for students in Years 2 – 6.

Volunteers will be required to attend a short training workshop which will show you how to deliver the programme.

The programme has changed slightly from last year. This year volunteers can choose which parts of the programme they would like to be involved in, depending on their skills and interests. Basically it consists of reading with a child, offering help, testing the child and completing some learning activities. You don't have to do it all if you don't want to. Some volunteers might be better at just reading with the students, while others may have more skill in the testing and teaching side.

Everything will be provided for you in the staffroom.

Each child requires about a 30 minute session, several times per week.

Currently, we have many children on the Multilit Programme and we require more volunteers quite urgently. We appreciate your support.

Please do not hesitate to contact me with any questions you may have regarding the Multilit Programme.

Please return the form below to your child's class teacher by Friday 19th February or email me at sally.eriksen@det.nsw.edu.au

Many thanks,

Mrs Sally Eriksen (STLA: Learning Assistance Programme)
