6 August 2009

Dear Sir,

I am writing on behalf of Cammeray Public School to thank Bunnings for its generous support for the School Robotics Group.

The children were absolutely thrilled to be finally able to practice on the smooth floor provided by your organisation. Having a surface other than carpet means their robots move freely for the first time. That makes an enormous difference to the learning experience.

As the Robotics Group is run by volunteers the only way we could have achieved this is through your support.

Please be assured your generosity is greatly appreciated by the families involved and will of course be acknowledged in the School newsletter and on our website.

Kind regards,

Evan Predavec  
President
